

Huize Holding Limited Reports First Quarter 2021 Unaudited Financial Results

May 18, 2021

SHENZHEN, China, May 18, 2021 (GLOBE NEWSWIRE) -- Huize Holding Limited, ("Huize", the "Company" or "we") (NASDAQ: HUIZ), a leading digital insurance product and service platform for new generation consumers in China, today announced its unaudited financial results for the first quarter ended March 31, 2021.

First Quarter 2021 Highlights:

- Total Gross Written Premiums ("GWP") facilitated on our platform increased by 133.1% to a record quarterly high of RMB1,393.8 million, compared to RMB597.9 million in the first quarter of 2020.
- Total operating revenue increased by 195.5% to a record quarterly high of RMB735.0 million (US\$112.2 million), compared to RMB248.7 million in the first quarter of 2020.
- Cumulative number of insurance clients served increased to approximately 7.0 million, and cumulative number of insured clients was approximately 58.4 million as of March 31, 2021.

Mr. Cunjun Ma, Founder, Chairman and Chief Executive Officer of Huize, commented, "Our first quarter results again demonstrated our strong growth potential. Driven by continuous improvements in pandemic situation in China and seasonal strength for the life and health insurance sector, our total GWP and total operating revenue both achieved record quarterly highs."

"During the quarter, market demand for critical illness insurance surged due to the transition to a new statutory definition of critical illnesses, coupled with our increased marketing spend to capture market share, as a result, our GWP for long-term health insurance grew by 123.2% year-over-year to RMB1.1 billion. The new definitions of critical illnesses brought both challenges and opportunities to the critical illness insurance market. Leveraging our years of experience and continuous improvement in product customization capabilities, we completed the product upgrade soon after the revised definitions went into effect, and launched the innovative new-definition critical illness product Darwin 5 Glory. In the long term, we believe there is still room for greater demand for critical illness protection, and we will continue to explore and develop more innovative products."

"With the official implementation of the Regulation of Internet Insurance Business in China, the online insurance industry is expected to thrive in a more sustainable and healthy environment. Going forward, Huize will continue to focus on users, polish our core capabilities, improve operational efficiency, and provide users with more diversified and personalized products and services through both online and offline channels. Moreover, we will seize the opportunity presented by the accelerating digital transformation of the insurance industry, empower upstream and downstream partners and the whole insurance ecosystem with data and technology, develop more mature insurance technology solutions, and strive to achieve sustainable development and high-quality growth."

First Quarter 2021 Financial Results

Total operating revenue

Total operating revenue in the first quarter of 2021 increased by RMB486.3 million, or 195.5%, to RMB735.0 million (US\$112.2 million) from RMB248.7 million in the same period of 2020. The increase in total operating revenue was primarily driven by an increase in brokerage income, which increased by 195.8% year-over-year to RMB732.6 million (US\$111.8 million) in the first quarter of 2021. The increase in brokerage income was primarily driven by the 133.1% increase in total GWP facilitated, which amounted to RMB1,393.8 million during the first quarter of 2021, of which first year premiums accounted for RMB889.8 million (63.8%) and renewal premiums accounted for RMB504.0 million (36.2%).

Total operating costs

Cost of revenue in the first quarter of 2021 increased by RMB408.9 million, or 276.7%, to RMB556.7 million (US\$85.0 million) from RMB147.8 million in the same period of 2020, which was primarily attributable to increased service fees paid to user traffic channels.

Total operating costs in the first quarter of 2021 increased by RMB408.8 million, or 274.9%, to RMB557.5 million (US\$85.1 million) from RMB148.7 million in the same period of 2020, primarily attributable to the increase in cost of revenue.

Operating expenses

Selling expenses in the first quarter of 2021 increased by RMB24.0 million, or 45.3%, to RMB77.0 million (US\$11.7 million) from RMB53.0 million in the same period of 2020. This increase was primarily attributable to increased advertising and marketing expenses, as well as an increase in salaries and employment benefits due to an increase in headcount, offset by a decrease in share-based compensation expenses.

General and administrative expenses in the first quarter of 2021 increased by RMB15.1 million, or 38.7%, to RMB54.1 million (US\$8.3 million) from RMB39.0 million in the same period of 2020. This increase was primarily attributable to the increased rental expenses due to office expansion, as well as an increase in general and administrative salaries and employment benefits, offset by a decrease in share-based compensation expenses.

Research and development expenses in the first quarter of 2021 increased by RMB7.6 million, or 67.9%, to RMB18.8 million (US\$2.9 million) from RMB11.2 million in the same period of 2020, primarily attributable to an increase in the number of R&D personnel.

Net profit and Non-GAAP net profit for the period

Net profit in the first quarter of 2021 was RMB28.5 million (US\$4.4 million), compared to a net loss of RMB2.3 million in the first quarter of 2020. Non-GAAP net profit in the first quarter of 2021 was RMB38.7 million (US\$5.9 million), compared to non-GAAP net profit of RMB22.2 million in the first quarter of 2020.

Use of Non-GAAP Financial Measure Statement

In evaluating our business, we consider and use non-GAAP net profit/(loss) as a supplemental measure to review and assess our operating performance. The presentation of the non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. We define non-GAAP net profit/(loss) as net profit/(loss) excluding share-based compensation expenses and interest on convertible bond. Such adjustments have no impact on income tax because either the non-GAAP adjustments were recorded at entities located in tax free jurisdictions, such as the Cayman Islands or because the non-GAAP adjustments were recorded at operating entities located in the PRC for which the non-GAAP adjustments were not deductible for tax purposes.

We present the non-GAAP financial measure because it is used by our management to evaluate our operating performance and formulate business plans. Non-GAAP net profit/(loss) enables our management to assess our operating results without considering the impact of share-based compensation expenses and the interest on convertible bond. We also believe that the use of this non-GAAP financial measure facilitates investors' assessment of our operating performance.

This non-GAAP financial measure is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. The non-GAAP financial measure has limitations as an analytical tool. One of the key limitations of using adjusted net profit/(loss) is that it does not reflect all items of income and expense that affect our operations. Further, the non-GAAP financial measure may differ from the non-GAAP financial information used by other companies, including peer companies, and therefore their comparability may be limited.

The non-GAAP financial measure should not be considered in isolation or construed as an alternative to net profit/(loss) or any other measure of

performance or as an indicator of our operating performance. Investors are encouraged to review the historical non-GAAP financial measure in light of the most directly comparable GAAP measure, as shown below. The non-GAAP financial measure presented here may not be comparable to similarly titled measure presented by other companies. Other companies may calculate similarly titled measures differently, limiting the usefulness of such measures when analyzing our data comparatively. We encourage investors and others to review our financial information in its entirety and not rely on a single financial measure.
