- **Cumulative number of insurance clients** served increased to approximately 8.2 million, compared to 8.0 million in the first quarter of 2022. We cooperated with 100 **insurer partners**, including 57 life and health insurance companies and 43 property & casualty insurance companies, as of June 30, 2022.

Mr. Cunjun Ma, Founder and CEO of Huize commented, "We are very pleased to report another set of resilient operating and financial results in the second quarter of 2022, despite the challenging macro environment and disruptions caused by regional pandemic restrictions in China. Our remarkable results were underpinned by our proven ability to satisfy the long-term insurance needs of emerging middle-class consumers through both online and offline channels, and our successful execution on the group-wide organizational structure optimization resulting in continued cost savings during the quarter.

We continued to work with our insurer partners to co-develop a wide range of long-term customized savings and protection products which have received overwhelming demand from our users. In the second quarter, GWP for co-developed insurance products accounted for 59.6% of the total GWP facilitated on our platform, and the GWP contribution of our long-term insurance products remained above 90% for the eleventh consecutive quarter. We maintain our guidance and expect to achieve quarterly profitability in the second half of 2022, demonstrating our confidence in the gradual recovery in total revenue and the improving operating efficiency.

Last quarter, we set a strategic roadmap for the next three years to build an omnichannel digital insurance service ecosystem that integrates "Agents, Businesses, Customers (ABC)". We have achieved satisfactory progress in executing the "ABC" business plans. To customers, the average ticket size of long-term savings products, in terms of FYP, was over RMB44,000 in the second quarter, demonstrating our ability to deepen engagement with our high-value customers through our proven online platform, expanding offline service coverage, as well as product innovation. To businesses, we have developed and exported our technology to insurance companies to support their digital customer relationship management, underwriting risk management and insurance claims. To agents, we have registered insurance agents covering Beijing, Shanghai, Sichuan, Guangdong and Shenzhen. By empowering them with diversified product offerings, digital business tools and customer service support, FYP facilitated by the "To-A" business has reached RMB56.6 million in the first 6 months of 2022. Going forward, we believe the "ABC" business plans will provide us with tremendous opportunities to enhance shareholder value and sustain our long-term business growth."

Second Quarter 2022 Financial Results

GWP and operating revenue

GWP facilitated on our platform was RMB871.8 million (US\$130.2 million) in the second quarter of 2022, an increase of 30.5% from RMB668.0 million in the same period of 2021. Of the GWP facilitated in the second quarter of 2022, first year premiums ("FYP") accounted for RMB484.9 million (or 55.6% of total GWP), an increase of 59.9% year-over-year. Renewal premiums accounted for RMB386.9 million (or 44.4% of total GWP), an increase of 6.1% year-over-year.

Operating revenue was RMB248.2 million (US\$37.1 million) in the second quarter of 2022, an increase of 13.5% from RMB218.6 million in the same period of 2021. The increase was primarily driven by the increase in FYP facilitated.

Operating costs

Operating costs were RMB173.7 million (US\$25.9 million) in the second quarter of 2022, an increase of 14.0% from RMB152.4 million in the same period of 2021. The increase was primarily due to higher marketing channel cost and was in line with the increase in operating revenue.

Operating expenses

Selling expenses decreased by 23.6% year-over-year to RMB59.5 million (US\$8.9 million) in the second quarter of 2022, compared with RMB77.9 million in the same period of 2021, which was primarily due to a decrease in advertising and marketing expenses, and a decrease in salaries and employment benefits.

General and administrative expenses were RMB34.7 million (US\$5.2 million) in the second quarter of 2022, a decrease of 14.1% from RMB40.4 million in the same period of 2021. This decrease was primarily due to a decrease in salaries and employment benefits, and a decrease in rental and utilities expenses.

Research and development expenses were RMB24.3 million (US\$3.6 million) in the second quarter of 2022, a decrease of 5.4% from RMB25.7 million in the same period of 2021, primarily due to a decrease in personnel costs.

Net loss attributable to common shareholders and Non-GAAP net loss attributable to common shareholders

Net loss in the second quarter of 2022 was RMB39.4 million (US\$5.9 million), compared to a net loss of RMB77.2 million in the same period of 2021. Use of Non-GAAP Financial Measure Statement

In evaluating our business, we consider and use non-GAAP net profit/(loss) attributable to common shareholders as a supplemental measure to review and assess our operating performance. The presentation of the non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. We define non-GAAP net profit/(loss) attributable to common shareholders as net profit/(loss) attributable to common shareholders excluding share-based compensation expenses and interest on convertible bond. Such adjustments have no impact on income tax because either the non-GAAP adjustments were recorded at entities located in tax free jurisdictions, such as the Cayman Islands or because the non-GAAP adjustments were recorded at operating entities located in the PRC for which the non-GAAP adjustments were not deductible for tax purposes.

We present the non-GAAP financial measure because it is used by our management to evaluate our operating performance and formulate business plans. Non-GAAP net profit/(loss) attributable to common shareholders enables our management to assess our operating results without considering the impact of share-based compensation expenses and the interest on convertible bond. We also believe that the use of this non-GAAP financial measure facilitates investors' assessment of our operating performance.

This non-GAAP financial measure is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. The non-GAAP financial measure has limitations as an analytical tool. One of the key limitations of using adjusted net profit/(loss) attributable to common shareholders is that it does not reflect all items of income and expense that affect our operations. Further, the non-GAAP financial measure may differ from the non-GAAP financial information used by other companies, including peer companies, and therefore their comparability may be limited.

The non-GAAP financial measure should not be considered in isolation or construed as an alternative to net profit/(loss) attributable to common shareholders or any other measure of performance or as an indicator of our operating performance. Investors are encouraged to review the historical non-GAAP financial measure in light of the most directly comparable GAAP measure, as shown below. The non-GAAP financial measure presented here may not be comparable to similarly titled measure presented by other companies. Other companies may calculate similarly titled measures differently, limiting the usefulness of such measures when analyzing our data comparatively. We encourage investors and others to review our financial information in its entirety and not rely on a single financial measure.
